

Nicholas J Reich

Sound Production: Live – Recording - Broadcast

RESUME - SOUND for PICTURE (as at Jan '24)

Nicholas "Nick" Reich is a Sound Engineer working in the Sound for Picture, Television Outside Broadcast, and Live Sound fields.

SOUND for PICTURE / LIVE EVENT FILMING:

Nick has over 25 years' experience as a Playbacks Operator and Multitrack Music Recordist, capturing the audio of Live Performances and Events for Broadcast, Video, or Audio media. Events with an Orchestral, Acoustic Music, or Theatrical component are a specialty - particularly Musical Theatre and Opera. Typical projects include Live TV or Streaming broadcast of arts-related events, Commercial Filming or Archival recording of full performances, purpose-filmed TVCs or EPKs for live shows, or Talent Auditions that need to be approved by Creatives who can't attend. As well as the above work, Nick offers sound recording for Interviews, Panel Discussions, and similar projects.

Much of this work involves extensive **Music Video style Sound Playback work**, using Pro Tools and similar software - including track preparation, Timecode distribution, and handling off-speed filming workflows. He also does such work for Film / TV Drama Productions with a music component - such as the 2019 Helen Reddy biographical film "**I Am Woman**", and the 2017 mini-series about The Easybeats, "**Friday On My Mind**" (Playmaker Media for ABC TV) - often in addition to the Production's traditional Location Sound Crew.

Notable Sound-for Vision projects include Sound Recording Supervision for the filming of the Disney Theatrical production "**Newsies**" in Los Angeles for worldwide DVD & Cinema release in 2017 (Directed by Brett Sullivan, Steam Motion and Sound). A similar project was the 2012 filming of the Melbourne production of Andrew Lloyd-Webber's "**Love Never Dies**".

Nick has handled Audio Pre-records, Mixing, and Playback for Filming of the TV Commercials, Web Trailers and EPKs for many shows, including those for "**Tina – the Tina Turner Musical**", "**Hamilton**", "**Beautiful**", "**Kinky Boots**", "**Les Miserables**", "**Love Never Dies**", "**Mary Poppins**" (2010 & 2022), "**Guys and Dolls**", and "**Annie**". Filmed Concert & Event recording work includes live audio capture for **John Farnham & Olivia Newton-John's "Two Strong Hearts"** live DVD, **Tina Arena's "Symphony of Life"** live DVD, "**Victorian State Schools Spectacular**" (multiple years) and Julia Gillard's "**Not Now, Not Ever**" live event (2022).

Audio-only Location Recording work includes the 2010 Australian Cast Album of "**Mary Poppins**" (Walt Disney Records), Location Recording Supervision for the Melba Records SACD release of Wagners' "**Ring Cycle**" in 2006 in Adelaide, and a wide variety of smaller-scale Classical and Acoustic Music recordings.

Nick is also well known as a Live Sound engineer and Sound Designer for Musical Theatre & Plays, Acoustic Music and Events, work he still occasionally accepts. For Filmed Events with a live Audience, Nick can supply and coordinate Sound Reinforcement if required. Should you be interested in Nick's work in this area, please request a copy of his 'Live' CV.

Nicholas J Reich

Sound Production: Live – Recording - Broadcast

TELEVISION OUTSIDE BROADCAST:

Some Arts / Light Entertainment / Event broadcasts Nick has worked on as Audio Director include State Memorials for the MH17 Disaster Victims, Dame Elizabeth Murdoch, and Mr Jim Stynes; Chamber Music in the City TV special, and the 2010 Opening of Victorian (Australia) State Parliament broadcast.

Shows for which Nick was Specialist ProTools Recordist or OB Audio Assistant include the Logie Awards (2011-2021), AFL Football Show Grand Final Special (2011-2019), Carols by Candlelight (2011-present), Good Friday Appeal (2011-present), Mushroom Records 50th Anniversary Concert, various one-off Broadcast Specials, and various DVD / Live Cinema Streaming projects for the Australian Ballet and Opera Australia among others.

REALITY TV:

Series that Nick has worked on include **"Hunted"** (ESA) and **"Emergency"** (WTFN). Designing and commissioning complex fixed-location control room systems is a specialty.

EQUIPMENT:

Nick is fully equipped for a variety of Sound-For-Picture projects, from simple Interviews, through to small Broadcast OBs of Public Events, and full Film productions in his specialty area of Arts programming. Nick is also closely associated with companies that can equip the largest Sound OBs.

Recorders: Sound Devices up to 128 channel, Pro Tools & Reaper up to 192 Channels.

Mixers: Yamaha, Sound Devices

Wireless Mics: Sennheiser

Wireless Links / IFB / IEM: Sennheiser

Microphones: Sennheiser, Neumann, AKG, Rode, DPA, Sanken
